

# Time to Reboot

---

**A**utomated  
**E**xternal  
**D**efibrillator

# What does an AED do?

---

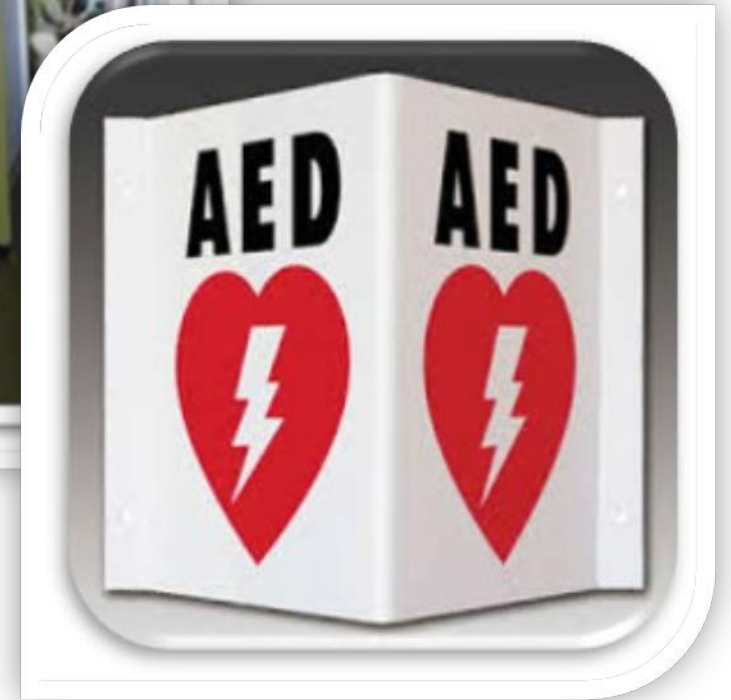

It delivers a shock to the person's heart giving it a chance to reboot

# Where can I find an AED?

---

- The mall
- County buildings
  - Libraries
  - Senior centers
  - Community centers
  - Schools
- On all emergency equipment
- In many county police cars

# Situations you may encounter

---

Pacemaker or  
implanted device

Hairy chest

Presence of water

Medicine patch

# How do I operate an AED?

---

- Power on the AED
- Follow the voice prompts:
  - Place pads on the person's bare chest, exactly like shown in the pictures on the pads
  - The AED will analyze the heart
  - It will tell you to deliver a shock or continue CPR
  - Cycles every 2 minutes
